How it all started

(Danny's pov)

Man. I'm so tired. It was Saturday and I was supposed to be hanging out with Sam and Tucker when skulker decided to attack the town. I was somewhat tired before that cause I had to deal with the damn annoying box ghost. While fighting skulker I had gotten some scrapes and bruises but nothing to serious.

I finally got home and changed to my human form and went inside. When I walked in nobody was there so I went straight to my room and fell asleep. (In the morning) I woke up and sighed. I had nothing to do to day and knowing my luck the box ghost is gonna try something dumb again. I decided to get up, have some breakfast and go for a walk. I walked downstairs. "Good morning Danny." "Good morning mom, where's dad?" "Your fathers in the lab dear." "Again?" "Yes, I'm afraid so." "Alright. "

I ate my breakfast then left the house. Knowing my dad he's probably working on something to catch me with. It was a beautiful day to be honest. To bad it didn't stay that way. I had finally got to the park and saw Sam and Tucker. I decided to go say hi and see if they wanted to hang out since we couldn't yesterday. The closer I got to them the more I began to notice that they were doing something.

I walked a few more feet and could not believe what I saw. Sam and Tucker. My two best friends we're making out. Tucker knew I had a crush on Sam and he did this to me! I couldn't hold back the tears that were streaming down my face. I was mad. I've been betrayed by my two best friends. Not wanting to see this anymore I turned and ran away. I ran all the way home and up the stairs.

I still couldn't believe that they did that to me! After everything I've done for them they do this to me. My heart is broken. Nothing could be worse than this. Boy was I wrong. A few minutes of laying on the floor crying skulker came crashing into my room. "Well well

well. If it isn't the ghost boy". " What do you want skulker?"" I want your head as my trophy". "Can we please not do this right now? I'm not in the mood. " "To bad. "

Skulker shot a ball of ectoplasm at me. I quickly dodged and shot my own ball of ectoplasm. He dodged and took out a new weapon. I don't know what it does and I don't think I want to find out. I transformed into Danny phantom and turned intangible just as a beem of electricity was launched from his hand. I ran towards him and tried to kick him but he grabbed my foot, spun me around and threw me into a wall. "Nice try ghost boy, but it's my turn now. " Skullker turned on his new weapon and it was awful. It looks like a regular plain knife but when it touches a ghost it causes immense pain. I screamed and clutched my arm in pain. Just as skullker was about to punch me my parents came in. "Get out of here you dumb ghost" Screamed jack. Skullker looked at me and said "your lucky ghost boy but next time you're not getting away! " then he went intangible and flew out. When he did my parents put all their attention on me, still in my ghost form. My dad looked at me pissed. This isn't going to be good. He grabbed an echo gun and pointed it at my head and then asked " Where is my son" I was really scared. "Dad, it's me Danny, see?" I turned back to my human self. "No you're not! My son isn't some half ghost freak like you! This is some kind of trick!" I couldn't believe what he had said. My own dad just called me a freak. "Give me back my son! " Maddie yelled. I looked at mom and she was more mad than dad was. "It's me! I'm your son! Why won't you believe me!?" "No you're not! Your not my son! Your kind shouldn't even exist! " After mom had said that my heart broke even more. They both started warming up their weapons and that was when I knew I had lost everything. I turned back to my ghost self and quickly turned intangible. As soon as I did that the gun was done warming up and they shot at me. I flew out of window and started flying as fast as I could.

It's been a couple of hours flying and I don't know where to go. My parents hate me and my only friends betrayed me. I was getting really tired when I remembered Vlad. It's a really bad idea but he said that he's always wanted a son so maybe he will take me in or maybe he'll kill me. I have to take the risk.

After a couple hours I was extremely tired. I had been flying for a while and just as I was about to give up hope I saw his mansion. I flew over to the end of the driveway and then landed and turned normal. To be honest I was really scared. Slowly gathering my little bit of courage I walked up to his door. I was about to know my stopped myself. What if I wake him and he gets mad. It's 3am so I think he'd be pissed to be woken up. I decided I would just sleep out here even though it's cold. I just hope he will take me in.

"Danny!?"

(Vlads pov)
I finished getting ready for work. I honestly don't want to go today. I am not looking forward to it. I opened my front door and could not believe what I saw. It was Danny fenton. On my front porch. I rubbed my eyes thinking this was a dream. After a while I concluded that it was not a dream. I looked at the poor boy and got extremely upset. He had cuts and burns on him and his clothes were torn. What happened poor boy. I walked over to him and was about to pick him up when he turned over and said that it was cold. I felt so bad for the boy. It was pretty cold out here. I gently picked him up and brought him inside. I took him to an empty room and set him down one the bed and put extra blankets on him. How long has he been out there? I called work and told them I wasn't able to come due to family issues. I sat in a chair next to his bed and started thinking of what could have happened to the boy for him to come to me. (A couple hours later) it's been a few hours and he hasn't woken up. It was now lunch time and I was getting worried. Just as I was about to try and wake him he woke up. He looked around and looked confused. When his gaze met mine he jumped out of bed and turned ghost. "Where am I!? " "Daniel, please calm down. I do not wish to harm you. " He didn't believe me at first but after a couple minutes he calmed down a little. "Daniel, may I ask why I found you on my front porch this morning? " Danny looked confused and then he jumped. "I... I don't want to talk about it right now... I'm sorry... " I wanted to tell him it wasn't a choice but he did not look well. "Daniel, would you like to have some lunch? " After I said that his stomach growled and his face flushed with embarrassment. Cute. "I guess that settles that. Come, follow me" I got out of the chair and helped him out of bed. While we were walking to the dinning Hall I had noticed that he was pale. When we arrived I opened the door and turned to him and said welcome to the dinning Hall.

(Danny's pov)
"Welcome to the dinning Hall" I looked up and was amazed. I knew

this place was a mansion but damn. It was huge! I walked in and sat at the table. Vlad sat at the end of it. A waitress comes up to me and asked what I want for breakfast. I didn't want to be rude so I said I will just have what vlads having. She nodded and walked away. A few minutes later she brought back a plate of eggs, bacon, toast, and pancakes. I was so hungry and that looked sooooo good. I looked over at Vlad and he nodded. I took that as permission to start eating. A couple of minutes passed and Vlad broke the silence. "Little badger, why were you on my front porch?" I dropped my fork. I knew he was gonna ask but I didn't want to talk about it right now. "Daniel, is everything alright? " Vlad had put his fork down and looked at me. I really didn't want to talk about it. "V-vlad... Can I... Tell you later please? I don't want to talk about it... "

(Vlads pov)
I was shocked. I never had expected Daniel to studder. I quickly got out of my state of shock and said " Alright but I need to call Jack and Maddie to let them know your here" After I had said that Daniel's head shot up and he looked at me with wide eyes. "No! Please don't call them! Please... Don't... " He started crying. When Daniel started crying I immediately got out of my chair and ran over to the boy and hugged him. Oh Daniel, what has happened to you. A couple of minutes has passed and I was still holding Daniel in my arms. I don't know what happened but one thing I did know was that it was not good. In all of the years I have been fighting Daniel he has not cried once. Plus he decided to come to ME of all people. What ever happened must of be severe. I held the boy close to me in my arms and slowly rubbed circles in his back to calm him down. "It's alright Daniel, everything's okay. I won't call them. I promise and I'm sorry"

(Danny's pov)
What? Vlad apologized? Why? "W-why are you sorry Vlad? " "I'm sorry for the past. I shouldn't have attacked you. I shouldn't have hurt you. Therefore I am extremely sorry. " I couldn't believe what I was hearing. Vlad apologized about everything he's done to me. I know I shouldn't do this but "it's okay, I forgive you".

(Vlads pov)

He forgave me? The easily? I couldn't keep the smile that came to my face. I was extremely happy that he forgave me. I do not want to lose his forgiveness. I am going to do everything in my power to keep him safe. " Thank you little badger. You don't know how happy that makes me. " I tightened my grip on him just a little so he knew how greatful I was. "Come now Daniel, let's finish our breakfast then get you cleaned up" I let go of him and helped him up. I hope he knows how much he means to me.

"They what!?"

(Vlads POV)
After breakfast I showed Daniel are the mansion. It was certainly entertaining to see his reaction to certain rooms. After a while we had finished our tour and I decide to take him out wherever he wanted. "Daniel? " "Yes Vlad? " "Would you like to go somewhere today? " He looked down at his shoes thinking about what he wanted to say. I was starting to go into my own thoughts when I heard "can we go to an amusement park? " I looked at him and he had a small blush on his face. "Of course Daniel, go get dressed and meet me in the living room please when you are done" After I said that the boy ran and went to his room to change. I smirked. Oh Daniel, you picked a bad place.

(Danny's POV)
I ran to my room to get dressed. I can't believe he agreed! It's been forever since I've gone to one. I grabbed a black shirt, black pants, black hat with a ice blue snowflake and black shoes. After getting dressed I went to the living room like he said. I waited for a couple of minutes. When he walked in I couldn't believe my eyes. The damn fruitloop wasn't wearing a suit! Instead he wore a black shirt with a red tie, black pants, white shoes with some red on them and a red hat. I didn't want to say this but he looks good in that. Wait, what!? What did I just say!? It was true though. I can't be thinking about him this way.

(Vlads POV)
I looked at Daniel and was a little surprised. He is actually wearing the clothes I had bought him. He looked good in them too. He really shouldn't have picked an amusement park. "Daniel, are you ready to go? " He looked at me surprised then looked a way with a blush on his face. Adorable. "Y-yeah, let's go stupid fruitloop" We walked outside and got into our car. I was going to get the limousine but I didn't think he would like that.

(Nobody's POV)

After driving for 30 minutes they arrived at the amusement park. They payed, got their ticket and started riding rides. On their way to the Farris wheel they saw Sam and Tucker.

(Danny's POV)
Me and Vlad were walking to the Farris wheel but then I saw them. I emeditly turned around and looked at Vlad. "Um Vlad? " "Yes little badger? " Um... Could we get some drinks now please? " "Of course little badger, let us go get some beverages"

(Vlads POV)
We started heading towards the drink bar. While we were walking I turned my head back to see what had troubled Daniel and that's when I saw his friends. I was confused on why he didn't want to say hi but then I found out the cause. They were holding hands. I was infuriated. Daniel had a crush on Samantha (Sam). I couldn't believe they could do that to him. Calming down I focused my attention back to Daniel. We arrived at the drink bar and the tender asked us what we wanted. I said water and Daniel said a vanilla milkshake.

(Danny's pov)
We got our drinks and sat down. I can't believe I saw them here. I'm still a little bit hurt but I'm also kind of happy cause if none of this happened I wouldn't be with Vlad. I was sipping my drink when the memories started playing again. "No... "

(Vlads pov)
"No... ". I looked over at Daniel and my heart broken. He was shaking and crying lightly. I put my water down and hugged him. When I touched him he jumped. " Little badger, it's me Vlad. Everything is alright. " After I said that Daniel cuddled up to me still crying. I held the boy and rubbed circles in his back. I hope I can make him happy again. A couple minutes passed and he finally stopped crying.

(Danny's pov)
I gently pushed myself off Vlad and wiped my nose. I can't believe I'm saying this but I'm happy I got Vlad. I drank the rest of my milkshake then grabbed his hand and led him to a roller coaster. I saw him blush a little when I grabbed his hand.

(Vlads pov)
Daniel grabbed my hand. I couldn't believe he did that. I couldn't keep the blush from forming. He took me to a roller coaster and all I will say is that this is going to be fun. We got on and was waiting for it to start. When it was done we were both out of breath. The ride took our breath away. After that one ride we had gone on a lot of others. (4 hours later)
It was now midnight and we were both tired. On the way back to the mansion Daniel had fallen asleep. When we got back home I picked up the sleeping boy and brought him to his room. Once in bed I turned off his light then left. I went to my own room and got ready for bed. Before falling into my slumber I thought *I am going to have to talk to Daniel about what happened* then I fell asleep.

(In the morning vlads pov)
I woke up at my normal time which was 6am and got ready for the day. When I was done getting ready it was 7 and it was time for my training. After training it was 8 do I took a shower and went to breakfast. I sat at the table and waited till Daniel came down. I knew our talk isn't going to turn out well. I just hope he doesn't hate me. 30 minutes later and Daniel came down. We told the chef what we wanted to eat and waited. This is my time to ask. "Hey, little badger? I apologize for asking but why did you come here? What happened?"

(Danny's pov)
I knew he was going to ask I just... Didn't think it would be this soon. "U-um... Well... I-in the morning I took a walk and saw Sam and Tucker together.... T-then I went home and... "
"And what Daniel? I need you to tell me". I started shaking. " S-skullker broke into my room and we fought t-then... M-my parents came i-in and saw me as phantom a-and... And... They tried to kill me... I-I showed them it was me b-but they didn't believe it and s-said I'm not their son c-cause their son isn't a f-freak like me...t-then pointed their gun at my head and f-fired...i barely escaped... " When I finished I was crying really hard. The memories just came flying back. Then I heard Vlad get up.

(Vlads pov)
I stood up and yelled "they what!? " I just couldn't believe that Jack

and Maddie could be that dense. I mean I knew jack could but it's still not right. I ran over to his side and hugged him "it's alright little badger your not a freak. Do not listen to them. I'm here for you and I always will be. I'm sorry for what they did". I'm so sorry Daniel. I'm going to protect you.

Getting to know Danny

(Nobody's pov)
It was the morning after Vlad found out what happened and he decided that he would do anything he could to make Danny feel better but then he realized he didn't know much about him so he would do little test like things.

(Vlads pov)
I have interesting plans today. I'm going to take Daniel to multiple different stores and see what he likes and hope he will accidentally spill some of his hobbies. I went to Daniels room and knocked on the door. "Daniel, are you up? " There was no response so I opened the door. "Daniel? It's time to wake up" I shoved the boys arm a tiny bit and he shot up. "Ahhhh! " Daniel looked terrified. "Daniel, what is the matter? It's just me, Vlad" When Daniel saw it was me he calmed down and apologized. "I'm sorry Vlad, just had a nightmare that's all" I felt bad for the boy, knowing what the nightmare may have been about. "I'm sorry little badger. Come now and get ready. We have a busy day today"

(Daniels POV)
I looked at Vlad confused. He never told me we had plans. "What are we doing today? " He looked at me and smirked. "It's a surprise little badger. Now get ready please and head to the living room when you are ready". I really don't know what's going on today but I don't think I care either. I will appreciate doing anything that will help get things off my mind. After he left I went to my closet. Damn. There were so many clothes. I grabbed a black jacket and dark green tank top, black pants, and black shoes with green laces then went down stairs. I wonder what were doing today.

(Vlads POV)
Daniel came down stairs and I stood up. I hope that today will be successful and that he'll have at least a little bit of fun. " Alright Daniel my boy, let us go" We walked out the front door and to the car. I figured he would most likely like to ride in a car rather than

my limousine. (30 minutes later) we arrived at the mall. "We're here"

(Daniels Pov)
We pulled up in front of the mall. I don't really know what we're doing here. "Hey, fruit loop. What are we doing here? " Vlad looked at me and said " Well Little badger, we are here to get you some new things and possibly a bite to eat" I looked at him confused. Why would Vlad take me to the mall?

(Vlads Pov)
I saw that Daniel looked confused. I grabbed his hand and dragged him into the mall. Once inside I let go of his hand. Oh how I wanted to hold it some more. I looked around and found a clothing store. "Hey Daniel, why don't we go in there hmm? " Daniel looked at me with a faint blush on his face. "Sure Vlad" We started heading to the store.

(Daniels Pov)
Hegrabbedmyhandhegrabbedmyhandhegrabbedmyhand. Vlad masters just grabbed my hand. My enemy grabbed my hand! Well, I guess right now he's not my enemy but still. I don't really know why but... It hurt when he let go. We walked into a store and this one shirt had caught my attention.

(Vlads Pov)
Daniel had his eyes stuck on this one shirt. On the said shirt was a dark blue fire rose. It was not that big of a rose and it had red pedals falling. It was an magnificent shirt. I looked at Daniel " Daniel, would you like that shirt? " Daniel looked at me with puppy dog eyes. Why did this boy have to be cute? "A-are you sure Vlad? " I nodded and almost instantly he ran a grabbed it. My Lord this boy. He came back "would you like to look around some more Daniel?" He looked hesitant and then nodded.

(Daniels Pov)
I was so excited! I got this super cool shirt and we get to look around more. Maybe I'll find something for me and Vlad. Hopefully matching and not a tuxedo. Even though he looked nice in them. I'd rather see him out of one.
N-not in that kind of way! I was walking and I found two shirts that

were the same. They were both black. One had a light blue gradient with snowflakes at the top and a red fire at the bottom. The other one was the same but the colors were switched around. I thought this would be perfect for me and Vlad so I grabbed them and went to go find the fruit loop. While I was looking for him I saw something I really didn't wanna see. Why can't they leave me alone...

Author's note

I'm so sorry for not posting in a while. I was in school when I started writing and I started to get bullied and it was all becoming to much for me. I moved and I've been dealing with family problems. Thank you for staying with me. I'm gonna try to post this week or next week. You guys are amazing

Getting to know Danny part 2

(Danny's Pov)
Why can't they leave me alone? I saw mom and dad as well as Sam and Tucker. I wanna die. I feel tears fall down my face. Why. Why. Why!?. Why did they have to show up! I was finally having fun! I fell on my knees crying. Please... Vlad, I need you, please come here... Please...

(Vlads POV)
I was walking to Daniel when I saw him fall on his knees. I ran towards him. "Daniel! Daniel are you okay? What's wrong? " Daniel turned and jumped into my arms. I held him tightly. Anybody that hurts with my little badger gets seriously injured. I looked in the direction that Daniel was facing and saw what was going on. Oh how my blood was boiling! There was his cursive ex friends that broke his heart as well as his bloody awful family. I felt my eyes turn red and tried to calm down. Oh they are so going to pay tonight. I looked down at Daniel. Oh my poor boy, I hope you can forgive me for what I have planned for them tonight. Daniel moved and his sleeve came down a little and I saw little red lines on his arm. He's been cutting himself... I grabbed and held his hand.

(Danny's pov)
Vlad grabbed my hand. I held his hand back. I just want the pain to stop. Maybe... Maybe if I confront them it'll help? Just as I thought that they looked in our direction. My parents looked angry. "There he is Maddy! " And they started running towards me. Why.... Vlad got up and quickly got in front of me. He put his hand behind him and put it on my head making me invisible. Mom and dad stopped in front of him. "Vlad man! What are you doing here? " Vlad started to get mad. I put my hand on top of his. He calmed down a little and asked them "I could ask you the same thing and for your information I'm getting some casual clothes for I don't own any. Not that it's any of your business" They looked shocked a little. "We're here because we were chasing that box ghost. Oh! Speaking of that we're going to go now. Bye! " Then they ran off. Vlad turned around

and got onto his knees, grabbed my face, and wiped my tears. "It's okay little badger, I'm not going to let anyone hurt you". I smiled at him. Maybe he's changed. I hugged him and he jumped at first but hugged me back. Then Sam and Tucker saw me and ran over. Please kill me now.

(No ones pov)
Sam and Tucker ran over. " Danny! " They both screamed. Danny stood up "what do you guys want" They both looked at him and got mad. Sam stepped forward "what the fuck Danny!? You randomly left and didn't tell us where you went. I thought we were friends! " Danny balled his fists "yeah, I thought so too but I guess I was wrong! I mean, what kind of fucking friends get together behind their other friends back knowing that that friend liked that girl! " Tucker got mad this time " dude where the fuck is that coming from! " "It's coming from you guys! You and Sam are a thing and y'all never thought to tell me. You knew I loved her and yet you still got with her! " Sam got red faced "your supposed to be happy for me! No wonder dash and them never liked you! We were your only friends. I'm so glad your gone. I couldn't deal with your fucking complaining about how no one likes you and how you ain't ever gonna get a girlfriend. Your just some pathetic piece of shit. Your parents should've killed you. We'd all be better off then" Danny started crying which made Vlad furious. Vlad got in front of Danny, held him, and then faced toward them. "What the bloody hell is wrong with you!? Daniel risked his life to protect you. To protect your town and instead of being thankful you want to bully him.
You don't understand that Daniel never had to use his powers to protect you. He could've used them for evil but he chose to protect you. He's been close to dying countless of times and never got even one thank you. Daniel deserves much more than he his given. He doesn't deserve pathetic little brats like you as his " Friends" He deserves people who actually like him for he his and he is going to be someone so much more than you are. Unlike you he is magnificent, he tries his best to save everyone he can. He deserves his life. You do not. So kindly take your ugly pathetic lives else where or I'll have to move you by force! " They turned away and ran. Vlad turned around and hugged Danny. I won't let anyone one hurt you...

Getting to know Danny part 3

(Vlads pov)
My hearts beating relatively fast. Am I.... Do I have feeling for the little badger? Even if I did he probably wouldn't like me back... That's alright, I just have to try to make Daniel better at the moment. I got up and reached my hand out to Daniel. He grabbed it and I helped him up. " Come on Daniel, let us not let that ruin our day shall we. I believe that we can still have fun, that is, if you want to"

(Danny's POV)
I grabbed Vlads hand and my heart skipped a beat. I think I like him. Damn it. "I want to continue" I wanna try to buy Vlad something without him knowing. I don't have much though. Just 50. We started walking again and I found a watch shop. We went in there and Vlad was staring at one. I was black leather with silver hands. I looked at the price. 50. Perfect. I looked around for something to distract Vlad and then I found suits. "Hey Vlad. Look over there. Aren't those some nice suits? " Vlad looked over and gasped "indeed they are Daniel, stay here while I check them out alright? I won't be long" Then he left. I looked at the cashier. "I'd like this one please and if you can please hurry" The cashier put it in the box, gave it to me and I payed, quickly putting it into my pocket. And just in time cause Vlad came back. "Thank you for waiting for me Daniel, I just wanted to check them out. I apologize" I looked at him and smiled "it's okay you cute fruit loop" Wait... What!?
Omgomgomgomgomgomgomgomgomgomgomgomgomgomgomgomgomgomgomgo
I can't believe I said that!

(Vlads POV)
Cute... Fruit loop... He called me cute. I felt my cheeks get warm. "I-I am not cute. I am grown so I can't possibly be cute". I stuttered!? I've never done that before. I feel ridiculous. I can not believe I did that. I hope he didn't notice. " You stuttered!? " Of course he did... I dont know what to say. "No, I absolutely did not".

(Danny's POV)
Vlad. Vlad masters. Just stuttered! He says he didn't but we both know he did. He's adorable. I grabbed his hand, looked up at him and smirked. " Can we go home please? " Vlad blushed "of course Daniel but we will come back some other time". We went to the car and went home. I had to go home. I was getting turned on and I didn't want him to know. When we got home I ran to my room. I hate myself so much for this. I fell to my knees, unzipped my pants and started doing it. While I was doing it I couldn't help but think of Vlad. I don't even know if I'm doing it right. I've never done this! Just as I took it all out so I wouldn't make a mess in
my pants Vlad walked in. Shit.

(Vlads POV)
I walked in and saw Daniel playing with himself. It looked like he was unsure how to do it. I walked over to him with a small blush on my face. " I can assist you with that if you'd like, it really won't be a problem ". He blushed and nodded. I can not believe he agreed. I grabbed his waist and pulled him close to me. I grabbed his member and started stroking. I went up and down while twisting my hand a little. He looked really embarrassed and couldn't keep his noises in. I squeezed his tip. " A-ahh! " I knew he was getting close so I keeped on going. Oh how I wish he would do this to me. After I thought that I felt myself getting arroused. I hope he doesn't notice.

(Danny's POV)
It felt sooooo good. I looked down and saw Vlad had a boner. I could always help him with that since he's helping me out. He squeezed my tip again and that's when I lost it. I thrusted upwards. "A-ahhh! V-vlad! " After I said that I came. I looked away extremely embarrassed. He's going to hate me. I looked at him and he was blushing as well. Well, this is fun. He looks so cute.

(Authors note. I'm so so so so so sorry everyone. I know this escalated really fast and that it probably sucked but I wanted to try and get a chapter out now and I thought I should make it sexual as a thank you to all of you but I'm really sorry if it's bad and I'm so sorry for how short it is)

how did this happen

(Vlads POV)
Daniel came into my hand. I was a bit shocked of how much came out. I suddenly felt something on my bulge. I looked down and saw that it was Daniel hand. I blushed and looked at him. He was blushing really hard and looked really embarrassed. "D-Daniel what are you d-doing" Daniel quickly moved his hand away "I-Im sorry! It's just... Y-you helped me s-so I was gonna do the same for you" He looked so cute and he looked like he was going to cry from embarrassment "o-okay Daniel" His head shot up and he was really red "w-what? " I hesitantly grabbed his hand and put it on my member. I looked away "y-you can do it if you want to" Daniels eyes started sparkling. God he is so cute. He started going up and down with his hand but he was extremely nervous. I put my hand over his "hey, it's okay, I'll help" I intertwined my fingers with his and started stroking my own member. A few minutes later I was getting close to cumming. And Daniel let go of my hand and moved it, then put it back on my member and continued to stroke it. He gave a gentle squeeze and I came into his hand. He looked at it and slowly licked it off his finger. "D-Daniel! " I grabbed his hand wiped it off. "I-Im sorry! I just wanted to know how it tasted. I-it was good" He looked away blushing. I sighed and hugged him. "Come on Daniel, let's go to bed" I picked him up and placed him in his bed. Just as I reached the door knob Daniel yelled "h-hey Vlad! P-please don't go" I turned around and went back to his bed and sat on the edge. "Of course little badger" Daniel moved back enough for me to lay down next to him. After getting into bed I cuddled him. "Goodnight Daniel"
"G-goodnight Vlad"
I don't quite understand how this happened but I like it so I won't question it that much. But really, how did this happen.

(Author's note)
I'm really really really sorry if this sucks. I hope you guys enjoyed it though. And remember that you guys can always come to me if you need to talk. I'm here for everyone of you and I'll try to help as

much as I can. Have a good day everyone and I'm sorry if this sucked

Im so sorry!

I'm so so so so so so so so so sorry everyone! I just started high school and I'm a sophomore now. I'm at a new school and I'm by myself. I haven't updated in forever due to family issues, unstability, and a lot of emotional issues. I'll try to update as soon as I can. But I really really really am sorry. I'll try my absolute best but I may not be able to as well but if I do it will most likely suck. And if your wondering what's wrong, there's a lot that's wrong but the one thing that hurt the most was me and my boyfriend broke up. He was the only one that treated me well and without him I'm pretty much alone. I'm so so so so so so so so so sorry everyone. I'll do my absolute best to try and update as soon as possible. I'm sorry I let y'all down and if I bothered y'all. But know that no matter what, all of you shine bright like the sun because your all your own stars

Fun date part 1

Vlads POV
I woke up and looked next to me and saw Daniel. Oh, right. Last night. Heh. I floated over Daniel gently and faded out the room. I just couldn't wake him up, he looked so adorable. As I was walking to my room I remembered that I was going to surprise Daniel. Damn. What's wrong with me. I usually never forget, not even once. I got to my room and went in. I got dressed in the matching shirts Daniel got us, black pants, and black sneakers. I went to the back of my closet and went into my secret shelf. I grabbed the ring I had bought him. It was white gold with a beautiful blue gem in the middle. I had used my powers to add a force field so whenever he is fighting, nothing will be able to hurt him. After that I headed to the kitchen. One of Daniel's favorite food is waffles so I made the chef cook that. I had a whole day planned for us at the mansion.

(Danny's POV)
I woke up and immediately blushed. I remember what me and vlad did last night. God damn it. He probably figured out that I've never done that before. Damn it, damn it, damn it. Whatever, I don't think he minded it. I got dressed then went to the kitchen. I was starving. When I got there I saw vlad waiting for me and a big stack of waffles. "Good morning Daniel, did you sleep well? " I stared at the food drooling. "Good morning vlad and yes I did. Are these for me? " Vlad laughed and nodded. As soon as he did I immediately started wolfing down the waffles. "Daniel, I have another fun day planned for us, and this time it's going to be here at the mansion" I looked up at him shocked. "Really!? "

(Vlad pov)
How cute. " Yes Daniel, now, how about we slow down our pace shall we? I don't think that you'd want to have a stomach ache all day now would you" Daniel slowed down his pace. 30 minutes later and we were ready to go. " Alright Daniel, let us start the day. Follow me" I took Daniel to my special garden. While we we're walking I saw bandages on his arm. I sighed. I wish he'd stopping

doing that. I'll talk to him about it later. I knew he hadn't done it in a few days though because I, being the good Vlad masters, put a camera in his room and took away everything he could harm himself with. When we arrived to the middle of the garden, Danny gasped. Oh, that boy can be so cute.

(Danny's POV)
I gasped. It was just... Beautiful. It had so many different colored flowers. There were even special ice blue roses. There was a table with an ice blue and red table cloth. I was confused cause we just ate but when I looked closer I saw that it was for arts and crafts. I love arts and crafts! Its childish but oh fucking well! It's fun and for everyone so, suck it. I looked at my arms. I know he knows and I know how he feels about it. I kind of looked through his diary. I've stopped for a few days and I'm feeling better. There's no scars, no pain, no nothing.

Authors note. I'm so so so sorry for not uploading when I said I might. I've been really busy with school and trying to find a job. I haven't been well either and so that kind of added to the stress. I'm sorry for this chapter being so short. I just wanted to try to get one out before you all start hating me. The next one will be longer. Always shine like the stars you are. Don't let anyone dull your shine. You all are beautiful and handsome people. No matter what people say. And it doesn't matter how you look. It matters on what on the inside and how you treat others. Just please know that I'm sorry. I'm sorry for everything and for being a bad writer

Fun date part 2

(Danny's pov)
I looked over at Vlad waiting to tell us what we're doing. Vlad looked over at me and smiled. This guy is so cute sometimes.

(Vlad's pov)
I looked over at Daniel and smiled. I know that I should not say this but, I love him. "Okay Daniel, we are going to build bird houses out of popsicle stick" After I said that he smiled. He is so fudging cute. I grabbed his hand and pulled him to the table. I split the popsicle stick pile in half and let him pick his colors.

(Danny's pov)
There were so many colors. I decided to do a fire themed one for Vlad because he's the one that planned all of this and he has a fire core. I started by making the floor. Once j thought that was good enough I started on the walls. I decided to go with a two story one. Once I thought that's the first floor was big enough I started on the second. I put a few windows so the birds can get in. When I was don't with that I went to the roof and finished. When I was done I started decorating. I painted the whole thing black and once the paint dried I started painting fires. Once I was finished painting and it was all dry, I sprayed on an adhesive layer and added a bit of glitter. I looked over at Vlad and was shocked. He did an ice themed one with a lot of different snowflakes. He used sky blue and white and did a gradient on the interest house. He added glitter on the snowflakes and made it look like the glitter was the snow. It was soooo beautiful! "Damn Vlad! I didn't know you were gonna do anything. That's really good! "

(Vlad's pov)
I smiled. "Language Daniel, and why would I not? You're house doesn't look half bad either" I grabbed both of our houses and hung them in the tree.

Authors note

Hey everybody! I'm back! I'm so sorry that this is so short. I know I said it would be longer but I just wanted to get a chapter out for you guys

Fun date part 3

(Vlad's POV)
After I put our bird houses up I grabbed Daniels hand. "Close your eyes Daniel, I have a surprise for you" He closed his eyes and I brought him to my secret pond. It was surrounded with blue bonnets. "Okay Daniel, you can stop but I need you to keep your eyes closed for another minute" He nodded. Oh my, I can't believe I'm about to do this. I got on one knee and took out the ring I bought him. I took a deep breath in and blew out. "Okay Daniel, open"

(Danny's POV)
I opened my eyes and couldn't believe it. Vlad was holding a ring. "W-what.. What are you doing? " Vlad blushed and looked up at me. "Daniel, I was wondering... Would you so kindly be my snowflake? " I-I couldn't believe what I heard. I started crying. "Yes Vlad" I jumped and hugged him.

(Vlad's POV)
I can't believe he said yes! I picked him up and swung him around! "Would you like to go get something to eat? " I put him down and put the ring on his finger. He looked up at me and nodded. "Okay Daniel, let's go get a crepe". I held his hand and brought him to the car. Once we were in we went to a crepe store. it was almost night time when we left. We were walking back to the car when I heard Maddie yell Daniels name. Just. Great. I turned around. " What do you want Maddie? " "Get away from him Vlad! He's a freak!" Jack stepped forward and pointed a gun at Daniel. I stepped forward as well and stood in front of Daniel. "I will only say this once. Leave!" They flinched. "No! Not until you move out of the way! " I balled my fist. "Oh? So if your a half a you're a freak, correct? I guess, you'll have to kill me too" After I said that I transformed into my ghost form. "Now, leave! " I flew towards them and threw them away from us. I transformed back and went to my little badger. "Come one Daniel, let's head home shall we? " I grabbed his hand and put him in the car. I swear, next time I see them I will kill

them. When we arrived home I helped Daniel out of the car. "Oh, my love. I'm so sorry that they ruined our night. Despite that I hope you still had fun" .

(Danny's POV)
L-love!? He called me love! I grabbed his hand and looked in his beautiful eyes. "I did Vlad. Tonight was amazing". I saw Vlad blush. Cute. I yawned.

(Vlad's POV)
Awe, such an adorable yawn. " Little badger, are you wanting to slumber? "
He nodded his head. "Alright, I shall walk you to your room." When we arrived I went in and tucked him in and gave him a kiss. "Good night little badger". I turned around to leave when he grabbed my hand. " U-um, Vlad? ". I turned around once more to look at Daniel. " Yes? " He blushed and looked away from me. "C-can.. Can you sleep with me? " I snickered. "Of course I can" I climbed in bed next to him and spooned him. He turned over and cuddled into my chest. I kissed him on the forehead. "Good night my little badger" He snuggled up more to me. "Good night fruit loop". Oh, how wonderful this day has been.

(Author's note)
I'm sorry for it being so short. I've felt awful for not updating. I've been going through emotional issues right now and I've been helping my dad get through his. I promise I'll try my best to update at least once a month. Have a wonderful night my lovelies. Always shine bright like the beautiful stars you all are

English is my language but I have a lot of spelling errors and I'm sorry for it. I wish I was better at it but sadly I'm not. I hope y'all can forgive me. And thank you, for all of your kindness

late

I'm sorry for not posting yet. I was writing something but realized that it's for later so I deleted it. Ima try to update really soon. I'm so sorry for the inconvenience

"Daniel, why?"

(In the morning, Vlads POV)
I woke up and felt breathing on my neck. I looked down and saw that Daniel was there. I forgot that I slept with him but I'm so glad I did. I love waking up and seeing him there by me. I got up and went to the dinning room. I've decided that I would make him a romantic breakfast consisting of heart shape waffles. I went into the pantry and saw blueberries. I decided that those would go good with the pancakes and him

30 minutes later

I was finally done making the pancakes and went to go wake up Daniel but when I turned around he was already there

(Danny's pov)
"Good morning Vlad" I wiped my eyes and took a deep breath in. When I did I smelled waffles so I ran to my seat. Once I sat down I heard Vlad laugh at me. "Shut up fruit loop!"
He brought over the waffles and I smilled. They were hearts.

20 minutes later

"Hey Vlad, can I go to the park? " Vlad looked at me for a while like he was in deep thought. He looked at me "sure Daniel just be safe, okay? " I jumped out of my seat "okay Vlad! " I ran to my room and got changed. It was hot so I put on a tank top and shorts. When I was done I left my room and went to the front door. Just as I was about to leave Vlad came up to me and gave me a water. " Thanks Vlad! " I kissed his cheek then left. I can't believe that my life's finally getting better! On the way to the park I stopped at a pet store I just couldn't help myself! Animals are pretty cute. When I was done I continued going to the park. I got there and sat on a bench in front of the lake. While I was sitting on the bench I saw Sam and Tucker. I didn't really care about them anymore so I looked the other way and ignored them. A few minutes later I felt a tap on my shoulder. I turned around and saw Sam and Tucker

there. " Um, can I help you guys? " Their faces immediately turned furious. " Can you help us!? Yeah you can help us! You just randomly left! Never said good bye or anything! I can't believe you did that to us! " Welp. There goes a peaceful day. I got up and turned into phantom and started hovering. Then I looked at them and said " Leave me the fuck alone. We're not friends" And then flew back to Vlads. When I got back he was no where to be seen. I looked everywhere for him. I got even more sad. I texted him to see where he is but never got a reply. I started feeling even worse. I felt awful. I sent an other text * Hey Vlad, please respond. I'm sorry if I did anything to make you hate me or if I made you mad at me. I just.... I can't lose you.... * I started crying and freaking out. Before I knew it I was in the bathroom crying my eyes out and holding my blade. Why.... Why does this always happen to me!? Does no one love me!? I sent one finale text to Vlad. * I guess you don't love me anymore huh.... That's fine Ig. Well, if it makes you feel any better, you won't have to see me ever again. But just know this. I love you and I always will. *. After I sent that I grabbed my blade and rolled up my sleeve. I guess this is it huh. I started cutting. 1 cut 2 cut 3 cut ..... Soon enough my entire arm was full of cuts and I was losing a lot of blood. I dropped my blade and looked at the ceiling. Tears were falling down my face. Then I heard the front door open. Vlad....

(Vlads pov)
I ran home as fast as I could after getting Daniels text. I hope I'm not to late... I ran around the house looking for him for 20 minutes. I haven't found him yet and I'm starting panic. I transform into my ghost form and fly around. Few minutes later I find him. " D.... Daniel.... " Tears started falling down my face as I ran to his side. I quickly pick him up and put him on the counter top. I grab a rag, tape, rubbing alcohol, and a few gauze. I put the rubbing alcohol and clean his cuts. After that I use my fire and stop the bleeding. I then proceeded to put on the gauze and tape them down. I picked him up and brought him to his bedroom. I sat down next to him and held his hand. " Daniel.... W-why..... Why would you do this.... W-was it my fault? "

(The next day)
(Vlads pov)

I woke up and saw that Daniel was still a sleep. I sighed. I got up and kissed him on his head. " I love you Daniel. Please come back. I need you ". I turned around and went to the kitchen to make him a big breakfast for whenever he wakes up. I made waffles with a bowl of blueberries and watermelon and a tiny plate of cookies for him. When I was done I went back up to check on him. When I went in I saw that he was still in slumber. I decided that I will get him an apology gift. I went out and got him ice blue roses and a box of chocolates with a small ice blue teddy bear. I hope he enjoys these. I went back home and put it all on the table and went back to check on him. When I entered the room, I saw that he was finally awake. " Daniel! You're awake! " I started crying. I ran over to him and gave him a really big hug and kissed him. " I'm so very glad that my little badger has awakened. I'm terribly sorry for yesterday my love. I was busy at work and couldn't respond to your first text right then. But the second I got your second text I immediately ran home. I'm so very sorry if I was the reason you did that.... "

(Daniels pov)
I looked at Vlad and I felt terrible. I should've known he was at work. " Hey, hey, it's okay Vlad. I'm okay" He looked up at me and sniffled. I giggled at how cute that was. He then said " I'm relived that you are my love." He looked away for a second embarrassed and then said " I love you ". I couldn't believe he said that to me. " I love you too Vlad! " A humped into his arms and kissed him. After a few minutes of kissing he pulled away and said " Come now, I made you breakfast. It may be big but you need it to replenish your blood" We both got up and went to the kitchen. When we got there I gasped. " V-vlad... Are these for me? " " Yes my little badger. They are. I got them for you because I want you to know how much I love you" I was speechless. I sat down at the table after putting my roses in a vase. While I was eating, I looked up at Vlad and smiled. How'd I get so lucky in having him

sorry

I'm sorry I haven't updated in a while. Kinda of been going through things. I'm gonna be even slower cause I may work on another book. Idk yet but I just wanted to say that I am sorry. I will try to post soon. I promise I'll try

The fair

(Dannys pov)
After breakfast I got up and went to the living room. "Hey fruit loop? " He turned around and smiled " Yes Daniel? "Um.. Hey um..." I looked away "I was wondering if we could go to the fair today? " He smiled and nodded. "Of course Daniel, I was actually about to ask that myself. What time would you like to go? " I jumped up and yelled "can we go now!? " He laughed and nodded. I ran up to my room and got dressed. It's a bit hot today so I put on a black and sky blue tank top with black tight jeans with holes in them and black sneakers with sky blue laces and a black hat. When I was done I went down stairs and saw Vlad. He was wearing the same things but his shirt had fire on it and his laces were red. I smiled "you ready? " He smiled back and nodded. I ran to the car. I really hope that I can find something to buy him for making him worry yesterday. (30 mine later) when we arrived I got super excited. It looked amazing! Vlad grabbed my hand which made me blush. " C-cmon Vlad, let's go on that one! " I pointed at a super tall rollercoaster that leens you forward when you get to the top. I dragged him to that one and he looked like he was scared. I looked at him " Are you okay vladdy?" His eyes went big when I said that he got a slight blush. "O-of course I am Daniel" He looked away. I smilled and pulled him on the ride. "Everything's gonna be alright babe" I grabbed his hand and looked him in the eyes and gave him a small smile. He smiled back and that's when the ride started. It went up slowly and when we got to the top, it stopped hard which made everyone scream. While we were at the top I saw Sam and Tucker and my mom and dad. Ugh. This is gonna be a fun day. A few minutes later and the ride dropped us super fast which again, made everyone scream. When the ride was over, I told Vlad about them. " Do you wanna go somewhere else Daniel? " I shook my head. " No thanks. I'm good". After that we rode a lot more rides and stopped for food. When we stopped for food thats when I saw the perfect thing to get Vlad. "Hey Vlad? Ima go to the bathroom. I love you" Vlad looked at me and nodded. " I love you too Daniel" I ran over and saw it. It was a ring with a small little flame on it and

had a Ruby and a saffire on the side of it. " Excuse me ma'am, is this for sale? " The lady looked at the ring and she smilled. " Yes it is! Would you like to purchase it? " I nodded " Yes please" She turned around and got a black ring box with a red ribbon. "That'll be 50 dollars please" I took out my wallet and gave her the money. " Thank you so much ma'am. Have a good day" She smiled and waved goodbye. I went back to Vlad. "Hey Vlad, I'm back" " Hey Daniel, welcome back" I giggled. " What's so funny? Mind sharing the joke little badger? " I blushed and looked at the shy. It was night time and the fair was gonna close in 30 minutes. I grabbed vlads hand " Hey Vlad? Let's go on the farris wheel" He kissed me on my cheek " Of course love" He got up and held out his hand. I grabbed it and we made our way to the Ferris wheel. It took a few minutes for it to reach the top but when it did, it stopped. This is my chance. "H-hey Vlad? " He looked at me. "Yes love? " I grabbed the box out of my pocket. " I-I got this for you" I handed it to him and he opened it.

(Vlads pov)
I opened the box the Daniel gave me and I just couldn't believe it. It was a ring and it was beautiful. I felt a tear run down my cheek. "Oh Daniel.... *sniff* I love it! " I put the ring on and jumped on the boy and kissed him. My oh my so I love this boy. We started making out and before I could comprehend what happened, Daniel was on my lap grinding on me. I started to feel aroused.

(Daniels pov)
I felt Vlad get hard and moaned. I can't believe I made him cry tears of joy. I'm so happy right now. Vlad slowly put his hand on my ass and grabbed it. "Mmmph! " I moaned in his mouth again. We pulled apart and stared in each other's eyes. I saw his eyes full of lust. We looked and saw that we were coming down so I got off his lap and just cuddles him instead. I feel like I'm bouta get destroyed when we get home. When we got off the farris wheel Vlad pick me up and carried me to the car. He layed my down in the back seat and got on top of me. "V-vlad? " He passionately kissed me and and grabbed my buldge. "M-mmmph! " We started grinding against each other. I then felt vlads member against my butt and couldn't handle it anymore. I tackled him. " Oh daddy, c-can we please? " He blushed like hell but in the moment nodded. I got off of him and started

unzipping his pants. I looked and noticed how hard he was. I then pulled down his undies. Once I did that I felt vlads hand on my buldge. I looked down and he started to unzip me. Once I had no clothes on down there I got on top of him and we started doing it.

(Vlads pov)
Daniel felt so tight and it felt so good to me.
He kept playing with my nipples which filled up with a little but more pleasure. While he was hopping on me I grabbed his member and started helping him out as well. I feel a little guilty for not being able to wait till we got home but I hope he can forgive me. (20 minutes later) " A-ahh~ Vlad, I-Im gonna... I'm gonna c-cum" I bit down on my lip for I was gonna also. "I-I am too Daniel. W-would you like me to pull out? " He then shook his head no. "A-ahhhhhh~! " Daniel came on to me and a little got on my face and I came in him. We were both panting. "Cmon Daniel. Let's go home"

Halloween

It was a month after the fair. Everything was pretty quite. Today was their first Halloween together.

(Danny's pov)
"Vlad! It's Halloween! Can we go do something please? " I'm so excited. I love Halloween. I'm a bit nervous though because there'll be a lot of fake blood and I don't want it to trigger me. I looked over at Vlad who seemed a little mad. "Vlad? Are you okay?" He got mad and yelled at me. "No! Leave me alone Daniel" Tears started swelling in my eyes. I turned around and started crying and ran away. I ran to my room. When I got there I locked my door and tried to figure out why he's like this. Did I do something wrong? I sat on my bed crying for what felt like hours when I came up with an idea. I'm go make him a gift basket. I ran to my closet and since it's Halloween I put on a black shirt with white bats, black pants and black sneakers. Once I was dressed I grabbed my wallet and went to the store. There were many different color baskets and I didn't really have a plan so I'm just gonna go with the flow. I grabbed a black basket and went to the candy isle. I grabbed bat gummies, dark chocolate bats, black licorice, fuzzy socks with bats on them and a bat teddy bear. Obviously I chose a bet theme. I went and got black tissue paper and then went to the check out. I checked out and went back home to make it. I climbed up the ladder that I got out from and got in my room. I made sure my door was locked and started putting the basket together. After working really hard on it I was done. I was heading to where Vlad was when I heard a noise. Being confused I headed towards where it came from. The noise came from a room down the hall. When I went in there there was no one and nothing there. I went to go turn on the light when I got grabbed from behind and a rag got put on my mouth. I screamed before I passed out.

(Vlads POV)
"Aaaaaahhhhh! " I heard a scream from up stairs. It sounded like Daniel. I quickly turned ghost and flew up there. When I got there I

did not see him. All I saw was a basket with a card. The card was from Daniel. It said "Dear vladdy, I'm sorry for whatever I did to make you upset. I hope you like your gift. I love you. Ps. Check the box in your room" I started crying. "Oh Daniel.... I love you too" I started flying around the whole house. After a few hours I still couldn't find him. I got really worried. I remembered that on the note it said to go to my room and open a box. I entered my room and found said box. I opened it and I couldn't believe my eyes. "H-how could this be possible.... " In the box was a baby onesie that said "you're a daddy". I started crying again. " H-hes pregnant.. " I need to find him. I left the house and went to his favorite places. To where I never found him. I transformed and flew around the city. I still couldn't find him. I went back home and tired to think of a plan. A few hours later and I still couldn't come up with a plan. I was about to get some food when I got a text. I checked it and it was from Daniel. I opened it but what I saw was horrible. It was Daniel tied up with blood falling down his face screaming. The people who have him were Maddie and Jack. I got outraged. I couldn't see where they were so I'm gonna go get the picture scanned. I'm coming baby.

(Danny's POV)
It... Hurts.... V-vlad... I opened my eyes and saw that they were getting ready to cut me again. I started shaking and I felt myself getting weaker. I need to stay awake. I'm using all my power to put a shield over that baby so that it'll be safe. I don't know how I got pregnant. I'm a guy! But whatever the reason is I'm happy to be pregnant. I want Vlad.... "Ack! " They cut me on my eye. "How do you like that you freak! " I was crying. Vlad... Where are you.... "Vlaaaaaaad! " I yelled. I hope he still loves me and that he will be here soon. They started cutting me over and over and over again. There was so much blood on my face that I couldn't see. V-vlad..... Please....

(Vlads pov)
" Vlaaaaaaad!" D-Daniel? I flew to where I heard my name and could not believe what I saw. I saw my little badger chained to a chair and bleeding. I got mad. "Get away from my fiance!! " I landed in front of him and blasted them with a fire ball. They got knocked into a wall and passed out. I turned around to untie Daniel.

'V-vlad..... " I started tearing up. "Oh Daniel, I'm so sorry... " I picked him up and flew him home. I put him in his bead and immediately started taking care of his wounds. "Daniel... D-did they hit your stomach? " He looked at me with a face full of pain and exhaustion "n-no they didn't.... I used the rest of my power to keep him/her safe" I smiled a little. " I can't believe that I am going to be a father" Daniel laughed a little. "N-neither can I.... " A few minutes passed and I was done stitching him up. "You should rest some my love" Daniel looked at me and nodded. " I love you my little badger" "I l-love you too fruit loop" Daniel fell asleep. I smiled knowing now that he is safe. Time for some monsters to pay

It was just a dream

Vlads pov
I woke up in a cold sweat and was breathing heavy. I looked to my side and saw Daniel. W-was that just a dream? I gently shake Daniel awake. "Mmnnn.Vlad? " He sat up and looked at me. "Daniel, are... Are you pregnant? " His eyes got very wide. "Vlad, where'd that come from. Of course I'm not. I'm a guy. I can't get pregnant. Are you alright? ". I forgot. Males can not get pregnant. I nodded my head and layed us both back down. Why did I think that would be true? I fell back asleep after Daniel kissed me.

Danny's pov
I woke up in the morning and looked over at Vlad. Why did he ask me that? Did he have a night mare? He looks.... Kinda sad. I'm gonna go make him breakfast. I got up and put in my sky blue robe and went to the kitchen. I made him heart shaped pancakes, a vanilla coffee, and a little buttered biscuit. I also got him a rose. I turned around to go wake him and I saw him. " Ah, baby. You're awake. I was just about to wake you up. Are you okay? " He nodded and went to his seat and sat down. I hope that whatever is upsetting him will go away soon. I'm gonna try to make sure that he gets happy again soon. After breakfast I decided that I was gonna give him his watch I bought him a while ago. " Hey vladdy, I got you something. I'll be right back. " I got up and ran to my room and got his watch. After I grabbed it I ran back down and gave it to him. " Here you go ". I sat back down and watched him open it.
His eyes got tears in them and get really happy. He smiled at me and yelled " Oh my god baby! I love it so so so much! It's so beautiful. Thank you! I love you Daniel! " He got up and picked me up and spun me around and then kissed me. "Hahahaha! Vlad! ". He put me down and kissed me again.

(Vlads pov)
I'm so happy right now. I know it may be too much excitement for a watch but it is just so beautiful. I am so happy to be with him. He is just so wonderful. I don't understand how I got him but damn am I

lucky. I am the happiest I have ever been when I'm with him. " Thank you Daniel ". He smiled and said " No problem Vlad". We just stared at each other for a few minutes and then kissed again. I'm so happy that he is okay and not hurt. I will kill anyone who hurts him. I don't care who it is. I just need him to be happy and safe.

Hellow everyone! I just wanna say sorry for another small chapter. I just wanted to put one out since it's been a while. I just wanna dedicate a little part of this chapter to my amazing and wonderful boyfriend. I love you so so so much baby. You mean the world to me. I'll always be here for you. And I'll always be here for the rest of you guys too. I hope you guys still like my book. If not please tell what I can do to make you guys like it again. I hope you guys and gals have an amazing day/night. You're all strong and smart. Don't let anyone tell you otherwise.

Anxiety attack

(Danny's pov)
After I gave Vlad his watch I had to go pee so I went to the bathroom. After peeing I walked my hands and looked in the mirror. Oh no.... W-why now... In the mirror was me but colder. "Vlad doesn't love you. He's just gonna leave you! " N-no.... I started crying. The me in the mirror just got meaner and meaner. He just kept on saying " You're ugly and no one will love you" " Vlad doesn't love you! " " You're a horrible boyfriend " " Nobody wants you here!! " " You should kill yourself " " Vlad hates you". I fell to the floor crying... I can't tell Vlad. He wouldn't understand. No one does. Everyone thinks anxiety is just like nerves and that it can't hurt you but mine is really fucking bad. It makes me over think absolutely everything. Little things like Vlad being distant or Vlad not holding me. It makes me hate myself to the point where I'm on the floor crying my eyes out. I just wanna die.... I'm a horrible person... I'm always the bad guy.... Kill me... Please... I don't wanna be here anymore.... I just wanna make Vlad happy... I want him to stay with me forever..... Ugh..... It hurts..... It hurts.... H-he doesn't love me... My breathing started getting erratic and the room started going black.... "V-vlad.... " I passed out

(Vlads pov)
Danny has been in there for hours now. I'm getting worried. I walk to the door and knock. "Daniel, are you alright in there? " I waited a few minutes and there was still no reply. "Daniel? I am going to come in now". I go to open the door but it is locked. I get increasingly more worried every second that I do not hear noise. " Daniel!! Unlock the door!! " Still nothing. I have no choice. I have to nock down the door. After three attempts the door finally came down. Once I looked in, I couldn't believe my eyes. "D-daniel... " He was on the floor passed out. I ran to his side and inspected him. No wounds or marks. Why did he pass out? I checked his heart beat and found it beating quite fast. I picked him up and rushed him to the hospital. Half an hour later and my Daniel still has not awoken. The doctor came to me and told me he had an anxiety attack. Oh

Daniel... I hope you are okay...

(Daniels pov)
I woke up in a white room. "W-where am I? " I looked around and saw Vlad on my side. He looked at me with tears in his eyes. "Daniel! I'm so happy you're okay!! " I smiled and then remembered what happened. "Daniel, the doctor told me you had an anxiety attack. May I ask what is was about? " I looked at him nervously and then looked down. "W-why? " Vlad grabbed my hands and squeezed them. "Daniel, please". I sighed. " Okay... I-I went to the bathroom and looked in the mirror so make sure I looked good and I-I saw myself but he was colder looking and h-he said that you don't love me and that your gonna leave me and I started freaking out because I-I... I can't lose you and my breathing got bad and before I knew it the room was going black and then I woke up here.... I-Im sorry.... Please don't leave me.... I-I don't wanna lose you.... I-I can't lose you.... I know that you've been busy lately and stressed out with your job b-but... It feels like I'm losing you... I'm not trying to to be selfish or pushy or anything... I just can't lose you... " I started crying again.... Shit.... Vlad doesn't need to see me cry.... He doesn't care... Ugh... I'm a shitty boyfriend... "Daniel... Youre an amazing boyfriend. People make mistakes sometimes. Yes, you have hurt me a few times but I have also hurt you. You are fine my love. I will never leave you Daniel. And I am sorry for making you feel that way. I truly do care about you. Okay? " I nodded. God.... I'm a piece of shit.... Vlad doesn't need this. "I'm fine Vlad. You can leave if you want. " Please don't leave.... I need you... Show me you care... Or don't... I deserve it anyways... "Are you sure Daniel? " "Yeah! Go ahead". No... Please dont go. " Okay Daniel, I am gonna go. You can always call me. You do know that right? " Yeah, I know. Bye Vladdy " ... Why.... Why does it hurt.... Why do I want him to know how much I'm hurting but... Am too scared to tell him?..... W-will he leave me if he does?.... I-It doesn't matter if I'm hurting..... As long as he's happy.... That's all I cared about... Haha...

(Authors not)
Sorry for the small chapter again and for not updating in a while. I k ow I always say this so you probably don't believe me but I am trying. I just always get really busy. Please forgive me guys. And if

you know someone who has anxiety, take it seriously. If they tell you they hate themselves, take it seriously. Even if they tell you a lot. They do that because they want you to show them that you care and love them but their scared that if they tell you why they hate themselves that you will seem like you don't care and that they bothered you. Anxiety and depression are serious things. If you need someone to talk to you can always come talk to me. Shine bright my stars!! I'll see you next chapter.

"Again!?"

(Danny's pov)
It was the next morning and I was able to go home so I packed me things and left. Vlad never came to pick me up so I was really happy to get home. Once I was alone I transformed into phantom and flew home. Once I arrived and I went inside and called his name. " Vlad!! I'm home!!" There wasn't an answer. Hmmm. He should be home. I went around the house and couldn't find him. I checked his room, the bathrooms, the kitchen, the movie room, my room, his closet, the garage, the pool, the back years, and still couldn't find him. He doesn't care does he.... I needed to clear my mind so I went to the park. I sat on the bench and closed my eyes and listened to the leaves rustle in the wind. It was so relaxing. Nature does wonders for the mind and soul. Before I knew it an hour had passed. I got up to go home since I felt better now and started walking. When I passed a tree I saw mom and dad. Shit.... I gotta get outta here. I turned around but right when I did they saw me and yelled my name. "Danny! " I turned around in hopes that they wanted to be my parents again but I was immediately met with my dad fist to my face. "Ouch.... What the hell dad!? " He looked at me with furry I've never seen in him before. "Why can't you just die Danny!? I mean, you're a fucking halfa thing. " That hurt me alot. I know I'm a disgrace but cmon... I'm trying my best.... "Why can't you just accept me dad!? I'm like this because of your guys stupid ghost portal thing!! " They both got increasingly mad and to make it worse, Sam and Tucker appeared. "Oh, isn't it Daniel. The freak who "hates himself"" Sam said. Really? She's really gonna go there? " Ya know what? Fuck all of you guys!! I'm the one who saves the town from ghosts! " I got mad. I'm actually kinda scared too. Dad has a new machine and I think he's gonna use it on me. " You're just a dissapoinment and a horrible son, friend, and boyfriend. No one wants you. All you do is hurt all of us! So... It's time we take care of you once and for all" Dad powered up his new gun thing and I transformed into phantom. Oh shit.... I can't get hit by that. I started to fly when mom shot me with a different thing. She shot me twice. "Ahh! " I looked and I was bleeding a lot

already. Whatever it was, it went deep. I have a cut on my stomach and on my arm. "M-mom... " I never thought mom would go to this extent. Or at least, I hoped she wouldn't. Oh man. This is gonna be really hard to get out of. I started looking for an exit and came up with a plan. I will throw ectoplasm at them and then go invisible and go past them and then home. I powered up my hands when I realized that the arm my mom cut wasn't powering up. What's happening? My mom laughed and said " You can't do anything like that in that arm now Daniel. It stops your powers. Sadly it's temporary though so we needa do this quick. Honey, please shoot him now" My dad positioned the gun at me and shot it. Shit. I quickly moved to the side but it wasn't enough. It his the left side of my stomach. "Arg" I needa get out of here fast. I turned around to leave when Sam punched me in the face. "What the hell Sam!? " I started freaking out. I'm surrounded and I can't go fully invisible. I fell to the ground. I'm going to die. I'm going to die. I sat on my knees with and put my head on the ground. I was shaking and crying really bad. I'm gonna die... Haha... I'm just a mistake that no one is happy with.... Ha... Haha... Hahaha.... Hahahaha.... Before I knew it I felt a different power rush through me. What's happening?

(Authors pov)
Danny's eyes we're glowing blue and purple and he started glowing. All of a sudden there was this blue and purple blast that through everyone back. It was from Danny. After that he quickly flew back to vlads.

(Danny's pov)
I don't know what just happened but at least I'm home. I walk through the door and saw Vlad. I'm so tired now.... Before I knew it, I blacked out.

(Vlads pov)
Danny got home and he looked horrible. He passed out and I ran over to him. He was bleeding severely and had bruises and cuts all over him. What the hell happened to my love?. I picked him up and brought him to his room. I placed him on his bed and took off his clothing leaveing him in his undergarments. I started looking over him takeing in all of his wounds. He has one cut on his stomach front, a deeper one on his left side, a blackened eye, and a cut on

his right arm. Oh Daniel.... What happened... I run and grab some band AIDS, hydrogen peroxide, and some string. He is going to need stitches. I first clean his wounds and the put patches on them. The band AIDS where to small. On the ones which he needed stitches I put some numbing stuff in hopes he won't be in more pain then he already is in. After a few minutes I start stitching him up. Once I was done I sat down and waited for him to wake up. I hope we will be alright.

(Danny's pov)
I wake up and see Vlad. I also see that I'm no longer in my ghost form and that I'm patched up. Thanks Vladdy. You're the best. I sit up and look towards him. He wakes up and tears up. "Daniel!! I am so glad that you're awake!!" I hugged him. He's so cute. "Thanks for patching me up Vlad. " He smiled and nodded. "Daniel, do you mind telling me what happened? " I jumped and sighed. I knew he was gonna ask me that. " My mom and dad attacked me again. They made this new weapon that temporarily gets rid of your powers but only in what area it hits you. Sam and Tucker was there too. Sam punched me... All I was doing was clearing my mind at the park and when I started to leave was when they attacked me. "
Vlad got mad and yelled "again!? "

Not an update

Hey my stars! I'm sorry for not updating lately. I've been really busy with school and stuff. I hope you've all been doing well. I'm gonna try to be updating soon. Also, to anyone who reads unordanary from web toon, do you think that someone should make a fanfic of John and Arlo. Like, John is depressed and self harms and Arlo figures this out by going to the infirmary and sees John there with bandages on his wrist and when John wakes up Arlo talks to him and they eventually start dating but then one day someone bully's John and John ends up on the floor shaking and crying and then he yells "I'm a monster!! " And then passes out and then later on he has a panic attack and Arlo comforts him and then the principle tells Arlo everything about John? Or is it just me. And I want you all to know that the reason I like these kinds of stories is because not a lot of people talk about self harm and I want everyone to know that self harm is serious and if your with someone or knows someone who self harms that you should take it seriously. I hope you guys and girls have a good day.

I cant do this anymore...

Hey guys... I'm not gonna be posting anymore. I'm going through a bad break up right now and I can't do this anymore... I'm sorry y'all.... I may work on it later but I can't right now... I'm sorry....

"Im tired of this.." *sad*

(Danny's pov)
Vlads mad by what my parents did. And so am I. I don't understand why they do this. Like, I get I'm a mistake and a dissapoinment and a bad boyfriend but it's not my fault. If they never made that fucking machine I wouldn't be this way. I looked over at Vlad and his eyes were red. "Vladdy hey, calm down. It's okay. " I extended my hand out and touched his shoulder and I guess I triggered something because he turned and punched me in the chest. "Arg! " Vlads eyes got wide. "I-Im sorry Daniel! I didn't mean to... " I just clutched my chest in pain. "it's.. Fine Vlad. I'm okay. " Vlad got quite and tears filled his eyes. "It's not okay Daniel, I hurt you. " I grabbed his hand "no matter how bad you may hurt me, I will always love you Vlad". I gave his hand a squeeze and looked up and gave him a small smile. He let go of my hand and layed me down. " You should rest Daniel. I love you. " He kissed my forehead and left. I looked up at the roof. I can't do this anymore. I wait a few hours till I knew that he was asleep and went to my bathroom and locked the door. I went to my shelf and pulled up the fake bottom and took out my blade. I'm sorry Vlad but I just don't wanna live anymore. I looked at our pictures together and played our song. I'm so sorry Vlad... My heart broke because I don't wanna lose but I.... I just can't anymore...im so tired of this... I put the blade on my wrist and took a deep breath. I'm sorry... I slit down and saw my blood pour out. I sighed shakly. "I guess there no going back now.... Good bye Vlad.. I love you.... I always will... " I could feel my vision getting blurry and I heard someone banging on the door. I think it's Vlad. ".. anny! Open . he . Oor! " I reached out with my good hand slowly. "V... Vlad... " I saw him break down the door and gasp and then darkness.

(Vlads pov)
I felt like something was off so I went to Danny's room. When I opened the door I didn't see him and immediately got worried. I looked everywhere in his room until I remembered his bathroom. I ran over and tried to open the door but it was locked. There is no

way he is doing that again.... Right? "Danny, open the door!. " Then I heard a thud. No.... I started punching and banging against the door to break it. As I was doing so, our memories flashed by. Our first date. Our first fair. I can not loose him. After bloodying my hands the door finally broke. When it did my heart dropped. There was my little badger on the floor.... With a blade next to him and blood pouring out of his wrist... I can not believe this is happening right now. "D... Daniel" I rushed over to his side. Oh Daniel. No. Please don't leave me. I curessed his cheek and saw a note. "Dear Vlad or whoever sees this. I've done this because I ruin everyones lives. I'm a mistake, disappointment, bad boyfriend, friend, and son, and I should just die. I'm tired of hurting and I'm tired of my parents and friends trying to kill me. What happened to we'll be together forever huh? I guess I just don't deserve happiness. One more thing. I love you so much Vlad. With all my heart and soul. I always have and I always will. Thank you for making me the happiest that I have ever been. I'll never forget you. Good bye my love. "
Tears were falling down my face. "Danny... " I do not want to loose him. I quickly picked him up and used my plasmius powers and flew us both to the hospital. When I got there I de transformed and ran in. " Please, somebody help me!! " . Two nurses rushed over and saw him. "Follow me! Quickly! " The one with black hair said. I followed her into a room and placed him on the bed. "Please, save him" I said. The nurses nodded their heads. Please Danny. Live. I need you. Live

(Danny's pov)
It's cold.... And dark... It's.... Beautiful! I see stars. It's like I'm in... Space... Oh yeah.... I needed to go to the ghost zone.... Oh well.... They will probably be happy I'm gone too... M-mnnnnn... Wait.... Why is it... Getting warm?... No.... Am... Am I.... Am I waking up?.... No... Please let me die... Please... Ugh...

(Authors note)
I'm sorry it's so short. I wanted to do something since it's been forever and because of how supportive everyone has been. Please try to stay positive no matter how hard things may be. Shine bright like the beautiful Suns y'all are! I love y'all and I'll always be here for y'all.

"Youre alright!! "

(Danny's pov)
I woke up and was blinded by the light. I heard beeping. Where... Am I? I looked around and slowly sat up. "Mnph" I looked around and saw nothing but clean white counters and a heart monitor. I'm... In a hospital. Ugh... "Daniel Fenton? " I turned towards the direction of who called my name. It was a doctor. "Yes? " " Hi, I'm doctor Franklin. Your fiance brought you here after finding you passed out with blood everywhere. You'll be able to go home in a few hours since you've been asleep for a few days. We've prescribed you with antidepressants that you'll take once every day. I hope to not see you under these circumstances again. Have a good day and remember things will always get better. " the doctor left the room and then Vlad came in.

(Vlads pov)
I was in the waiting room when the doctor came out and informed me that Daniel has awakened. I got up and ran towards his room. I have missed him a lot. "Daniel!! You're alright!! " I ran over to him and hugged him tightly while being careful with his cords. "I missed you so much. Please do not do this again. I can not lose you... " I grabbed his hand and kissed it and then kissed his forehead. "Here you go my love. I love you dearly. " I handed him the blue roses that I bought him earlier that day. I'm so excited to show him is surprise at home.

(Danny's pov)
I accepted the flowers and smelled them. They smell amazing. "I love you too Vladdy. I won't do this again. I promise. I'm sorry. " I grabbed his hand and kissed it. I can't wait to go home. 3 hours later the doctor told me I could go home so we did and when we arrived I was shocked.

(Vlads pov)
I figured I would do something nice for Daniel to show him that I truly do love him and that he is needed. We walked through the

door and saw a blue poster that said welcome home love and the two tables next to the door had blue and white roses on them. I can not wait till he sees the rest.

(Danny's pov)
I walked in and saw the poster and roses and smelled waffles. "Vlad? Can we have those waffles? " . He laughed and nodded. When we entered the kitchen there were blue and red and white roses in the middle of the table, heart shaped waffles on plates with blueberries and strawberries, and a small box with blue ribbon. I sat down and Vlad sat in front of me. "Thank you so much Vladdy. I really needed this. " I smiled at him and he smilled back. " no problem Daniel but we are not done yet. " we're not done yet? What's he mean? After breakfast Vlad took me to my room. "Vlad, why are we here? I've already rested enough. " Vlad laughed and covered my eyes. "You'll see little badger. " I heard my door open and felt Vlads hand come off of my eyes. When I opened them I gasped. "Vladdy!! This is beautiful!!. " My room was redecorated. It had ombre blue walls, a dark blue silk bed set, an ocean light, blue roses, a red heart plush, and a new teddy bear. I turned towards him while tearing up. "Vlad... Thank you so much!! I love you. " he hugged me tightly and kissed the top of my head.

(Vlads pov)
I hugged Daniel and kissed his head. "You're very welcome my love. " I can not wait to see how he reacts to his other suprises. " I love him so much.

(Authors note)
Hey stars!! I'm sorry for it being so short. I just wanted y'all to know that I haven't given up on this. I'm also sorry that it's mostly author notes then the actual story now. I'm trying to make sure you're all okay and that you all know that your special and loved by and to someone and that y'all aren't alone. I want y'all to know that know matter how dark things may seem, there is always some light. Never give up. I love y'all

"Really!? "

(Danny's pov)
After our hug I remembered the blue ribbon box in my pocket. I opened it and saw a beautiful watch. I kind of needed one. Haha. "Oh Glad, this is beautiful! You're way to kind to me". I grabbed his face and kissed him on his lips. He makes me so so so incredibly happy.

(Vlads pov)
" I'm not done yet baby. Go to your closet and put on the blue robe and then go to the movie room. I will be awaiting your arrival ". I gave him a quick kiss before heading there myself. I can not wait to see his reaction to this. I hope he likes it for it is his last suprise. I walk into the movie room and ensure that everything is ready. I turned on his chair warmer, got his favorite snacks and drinks ready, and got the movie ready on the screen. All that is left to do is get myself changed and wait for him.

(Danny's pov)
I went to my closet as Vlad said to do and found the robe. It was a beautiful sky blue silk robe with dark blue flowers. I put it on and smiled. As I was leaving my room I remembered that I had a blue rose hair clip so I put it on and then left. I hope I look cute enough. He truly is amazing to me. Hehe.
After a few minutes of walking I arrived at the movie room so I went in. It was beautiful. There was blue string lights in the shape of a heart around our seats, a blue and red rose in the middle, and then him, in his magnificent red robe. He looked great. I walked over and sat down. " this is amazing Vladdy" . Vlad looked at me and blushed a bit. He's so cute. "You look handsome my love" Vlad said to me as he grabbed and kissed my hand. I got butterflies and giggled. "Let's watch the movie!! ". Vlad laughed and nodded. He pressed play and I couldn't believe what I was seeing. It was... Our dates!! He put a movie together of all of our dates!! I stared crying tears of joy. " oh Vlad!! This is amazing!! ". I jumped up and gave him a soft yet passionate kiss on his lips. After a while the movie

ended and I went to get up but Vlad stopped me. " Vlad? "

(Vlads pov)
I stopped Daniel from leaving because I wanted to tell him something very important. "Daniel, my handsome king, before you leave this room I just wanted to say that I love you with my entire body, soul, and mind and that being with you has made me incredibly happy. I do not ever wanna lose you. I wanted to make today special so that you would know how much you mean to me and how much I love you. So that you would know that my life would be incomplete without you. So... I would love to ask... Will you promise to be mine forever? I'm not asking for marriage yet but I do want to be together with you till the end of time". I smilled at him as my heart was beating very fast. I hope he accepts.

(Danny's pov)
I-I can't believe this!! Tears started falling down my face. " y-yes Vlad. I will!! " I tackled him and kissed him. Ugh I love him so much!!

(Authors pov)
Hey my moons! I'm sorry for all the short chapters and for constantly having large breaks. I really am working on it. I hope you all are well and that you all have an amazing day or night. If you ever need to talk I will always be right here.

Hey stars! I just wanted to come and tell you all that you're beautiful the way you are and that you don't needa change anything about yourselves. You're all beautiful and unique in your own way. Please stay true to yourself and don't change yourself unless it's something that you yourself wants to do. I love you all the way you are and I think your perfect the way you are. I'm sorry this isn't a chapter. I'm working on a special one that should be released around Halloween. I just wanted you all to know how amazing you are and to hopefully cheer someone up and make your day better. You all shine brightly. Never lose your happiness ❤

Second Halloween

It was a few weeks after they got promised to each other and they realized that Halloween was in a few days. They went out and got costumes, candy, and decorations. But little did they know, they would have a huge surprise on Halloween day.

(Danny's pov)
I woke up and realized it was Halloween. Yay!! I'm gonna make Vlad wear a couple costume with me. Hmmmm. Why should it be though? Ooooh! I know! I'll be a princess and he'll be my prince. I'm gonna get breakfast first though. I got up and went down stairs and smelled something amazing. When I entered the kitchen I saw a Halloween rose bouquet and some bat pancakes. I sat down and saw a note. "Hey love, I am sorry I am it there for breakfast. I had to work a little but I will be home later. I love you". Damn. Oh well. I guess it's fine. I finished up breakfast and went to my room to get dressed. I wore a sky blue dress that had some glitter on the top and wore a blue rose in my hair and added some take blood to my face and legs. I chose princess cause why not. After getting dressed I decided to decorate a little. I went to the front door and hung up some bat banners, layed down some pumpkins, and added some fake blood to do floor. When I was done with that I heard the door. I looked through the peep hole and saw my parents. Oh no... I mad sure the door was locked and went to the kitchen and kept decorating. After a while they left and I continued on to the rest of the house. When I was done I saw it was time for Vlad to get home so I got his costume ready and and waited. About 10 minutes later he came home. " Hey love! " I yelled while running up to him.

(Vlads pov)
I looked up to see Danny running up to me in a dress. A beautiful one at that. "Why hello princess, how are you? ". I hugged and kissed his cheek. He looked at me and smiled. " I'm alright Vlad. But go check your room". I nodded and headed to my room. I needed to change anyways as I smelled foul. I walked in and saw a suit. Ah. I see. He wants us to match. How cute. I dress into my suit and make

my way back down stairs where I see Daniel waiting for me. "How do I look love? ". He looked at me and blushed. I made sure to leave a few buttons on top undone. I laughed. " I will take that as a good thing". I grabbed his hands and kissed the back of them. Oh, he is so adorable. "Would you like to get our night started now? ". He blushed once again and nodded. I grabbed his hand and brought him to the car and opened the door for him. " Get ready for a magical night my love". After a while we arrived at the first place. The park. I took his hands again and walked him over to the picnic I set up for us.

(Danny's pov)
We arrived at a park where be lead me to a picnic. It's beautiful. There were black and red and orange roses all around a soft blue blanket and a skull light. " Vlad, this is amazing! " . I jumped in his arms while laughing. After a few minutes in his arms we sat down. Once we sat down he handed me a bucket. It had a lot of candy and some little skulls. We cuddled and after a few hours he got in front of me and grabbed my face. "Daniel, look up". I did what he said and saw a blue Star. " I named the blue one after you. You have your own star. Isn't that wonderful?. " before I could respond I saw a horrible sight.
It was mom and dad and Tucker.
I started shaking. "V-vlad, can we go please?. " I asked him with a shakey voice. He looked at me confused and then turned around.

(Vlads pov)
Oooohhh. Now I know why my Daniel is scared. Those bastards. I stood up and helped Daniel up and started to walk away. But of course, that nincompoop of a father had to yell. "Yo Vlad man! What you doing here with that freak? " I did not have the patience for this. I turned around and punched him in the face. "Firstly, he is not a freak. Secondly, you are a horrible father, and lastly, I'm taking him on a fun day since his own family won't. " I turned back around and brought my little badger back to the car and went back home. When we got home I brought Daniel to the roof where his final surprise layed. Once we got up there he gasped. "Vladdy, this is incredible!! ". He is so cute. I made us our own little so called haunted house by inviting the ghosts from the ghost zone. We all just danced and told stories and some actually scared Daniel. And

afterwards me and Daniel went to bed.

Hello my little batties. I hope you all had a spooktacular Halloween and that you have a good day today. Remember your not alone and you all shine brightly in your own ways!

Christmas

A few months later
(Danny's pov)
I woke up and checked the date. It's Christmas! I jumped out of bed and ran to Vlads room and woke him up. "Vladdy! It's Christmas! ". He slowly got up, came up to me and kissed me and nodded. After that I left his room to let him wake up more and went to the kitchen. I made coffee, gingerbread shaped pancakes, and got us a fruit bowl. As soon as I was done I looked over at the door and saw Vlad staring at me. I smiled. " come sit down Vlad. Breakfast is ready". He nodded and sat in his seat. A few minutes later we were both done. "Yaaaaay! Present time! ". I got up and ran to our living room. I still loved our tree. It was huge and had green, red, and yellow ornaments, multicolored lights, and our customized star topper which was of our hands.

(Vlads pov)
Daniel ran out of the kitchen and to the living room. My, isn't he cute? By the time I made it in Daniel was already on the couch waiting and organizing our present piles. His gifts were wrapped in a sky blue wrapping paper with snowflakes and sliver ribbon. Only the best for my love. As we sat and passed the our opening presents I sat there admiring him and wondering how I got so lucky. After gifts though we cuddled and watched Christmas movies.

(Danny's pov)
After presents we watched a movie. It was my favorite one too! While watching the movie we ate carmel popcorn and drank hot cocoa. After movies we spent the rest of the day messing with our gifts and had a really good dinner. It was ham, mashed potatoes, apple pie, green beans, and carmelized brussel sprouts. And after dinner we went on a walk and looked at Christmas lights. It was an incredible day.

(Authors pov)

Please (authors note)

Hey star lights! I have a favor to ask. I was wondering if you guys wanna help me start making this world a nicer place. Ik it'll be hard but I also know that if enough people do it it'll be worth it. All we needa do is do our best to be kind to everyone and to to try to help out where and when we can. And please remember not to mistreat your loved ones or anyone you care about. Kindness goes a long way and it's something that everyone should do. Ik it may feel like it's useless but one day you'll see how amazing it'll be. If you're a bad person or mean to people you're gonna get a punishment and if you're nice and caring you'll get a reward. Please help me share kindness and show people it's not hard to be nice. I love you all and I hope you all have a good night/ day

Authors note

Hey star shines! I'm so sorry for the irregular posts. I've found out a lot of upsetting things lately and I've been dealing with them. I just want you all to know I haven't forgotten about you all. And please be kind to people. No matter what. A little bit of kindness goes a long way and I know that we can make the world a happier place. So please spread kindness where you can and motivate people to do the same and to try not to do harm. It's more okay if it's verbal harm but worse if it's physical. Any kind of harm or rudeness is not okay but some are more acceptable than others. Anyways, I hope you all have a good day/night and don't forget you're amazing the way you are. And I'm sorry if you don't like my little life pages. I wanna try to help the world so I'm doing what I can. And please remember that I care about you all

*Quick authors note. I'm sorry for taking a long time. I just finished school and someone in my family passed so it's been hard. But I'm back now and I have good news for the story. I'm going to do a happy ending and it's going to be a couple of parts and after the ending I will do short stories if that's what you want. Anyways, on to the story! *

(Dannys pov)
It's been a couple of months since christmas. For our valentines date we went to a fancy restaurant after watching a movie aaaaaaaand he proposed!! I said yes of course, it was a beautiful ring. Its just a band but it has blue diamonds in it. Anyways, after that we just kinda stay at home and have fun but today we are going on walk and are gonna have a picnic! I'm so excited! I still have to pack the basket and get dressed so I'm going to do that. Hmmmm... What should I wear? I looked in my closet and found a nice ice blue shirt. I'm going to wear that with black pants. *few minutes later* Alright. I'm all dressed. Now I have to make our basket. I'll head down to the kitchen. I walk down stairs and go to the kitchen and open the fridge. Hmmmm.... Oh! I know! I'll make some BLTs and pack some chips and water bottles. I take out the bread, bacon, lettuce, tomatoes, and ranch. I put ranch on both pieces of bread and then the lettuce, the tomatoes, and lastly the bacon. I wrap them in plastic wrap and pack them in our basket with the chips and water bottles.

(Vlads pov)
I walk down stairs and see Daniel packing our basket. "Hello Daniel my love". I walk up behind him and give him a hug. " Hi Vladdy!" He turns around and smiles at me sweetly. "Are you ready for our picnic? ". He smiles even wider. " Yes! Of course I am! ". I smile back and grab his hand. " come on then Daniel". We head out the door and go to our car where I open the door for him. "In you go Darling". Danny got into the car and we drove to the park.

(Danny's pov)
We drove to the park and I was so excited. It was a beautiful day. The sun was out, there were butterflies, and it was the perfect temperature. We took out our basket and sat by the lake. It was a beautiful sight. We sat there for hours listening to music, dancing, talking, and just enjoying each other's company. " oh hey, it's getting late". I looked at the sky and stars were beginning to show. "Yes it is Daniel, would you like to go home now? ". Before I had the chance to answer I was hit in the stomach with something. " ahhhhhhh! ". I fell onto my knees holding my stomach. " Daniel! " . Vlad fell to the ground to see what happened. "Love, move your hands. I need to look at your stomach. " I did what I was told and was horrified. I was... Bleeding... "Vlad?... Will I be okay?. " I looked at Vlad and he had tears in his eyes. "Yes, you'll be just fine my love but we have to get you home so I can treat the wound. Do you feel well enough for a flight?" I was about to answer when we heard "ha! I got the freak! "We both turned around and couldn't believe our eyes. It was my mom and dad with Sam and Tucker. " H-how'd you know we were here?... " They just laughed. Sam came forward " me and Tucker were at the park too when we saw you so we went and got your parents. Or should I say ex parents. " They all started laughing which pissed Vlad off. " What the hell is wrong with you all!? Danny did nothing wrong! He's just trying to enjoy the life that you all make miserable!! ". He stood and clenched his fists. " If you don't leave in 10 seconds I WILL destroy you all. No one hurts my love". "Love!?. " they all yelled. "Why are you dating that freak? I bet you he doesn't make you happy". Vlad transformed and shot at them. They dodged and yelled. " He makes me happier than any of you could ever imagine! Daniel is amazing! ". Mom, dad, Sam, and Tucker all got out fenten guns and started shooting at us. More at me though. I shakily stood up. " augh!". I leened on Vlad. " I won't let you hurt my fiance! ". I transformed and then coughed up a little blood. " Daniel! ". Vlad looked at me with concern. " don't worry Vlad, I'm okay". We both knew I wasn't but I didn't wanna worry him by telling him how much pain I'm in. I quickly put up an ice shield so their blasters wouldn't get us. " what's the plan Vlad? ". He looked in deep thought. " Daniel, we need to get you home for treatment. I will distract them while you fly home. Once you're away I will demobilize them and go home as well okay? ". I started tearing up. " no, no! We're going home together! I'm not leaving

you... ". " Daniel, my love, I will be okay. I promise. I will see you at home. ". Vlad kissed my forhead and I nodded. " you better come home". He smiled " I will Daniel". We shared one last kiss before enacting our plan. I threw my ice wall at them and then put more ice on the ground which Vlad used his laser eyes on and created a mist. They couldn't see us. I started flying "I love you Vlad, see you soon". " I love you too Daniel". After he said that to me I flew away. I was hurting so much and was losing a bit of blood. By the time I was half way there I started coughing up more blood. My vision started to blur too and that's when I knew I may not make it. Oh Vlad, I'm sorry. I love you. I went on as far as I could and I was able to make it home but I started losing strength and ended up falling onto our porch.

(Vlad pov)
After Daniel left I held nothing back. I dodged all their attacks and shot back. I got Sam in her stomach, Tucker in his leg, Jack in his arm, and Maddie in her hand. They were all wounded but I wasn't done. They hurt my Daniel countless times. I surrounded them in a circle of flame and let them suffocate. Obviously I didn't kill them. Just knocked them out. Once they were out I rushed back home. "Oh Daniel, please be okay"... When I got back home I was shocked. Danny was on our porch passed out and bleeding out. I fell to my knees. " Daniel.... My love"...
